What are Fat Quarters?

Before we dive into the quilting projects, let's first understand what fat quarters are. Fat quarters are pre-cut pieces of fabric that are commonly used in quilting. They are typically cut in a rectangular shape, measuring 18x22 inches. Fat quarters are called so because they are larger than regular quarter-yard cuts.

Fat quarters are a popular choice amongst quilters as they offer versatility in design and are perfect for creating vibrant and diverse quilts. With 12 fat quarters, you have a wide variety of colors, patterns, and textures to work with, making it easy to design a unique quilt.
