Description: This is an electronic reproduction of the original Ford printed manual. The 1965-72 Ford Car Master Parts and Accessories Catalog is the original manual used by Ford technicians in the 60s and 70s to identify the correct service part for Ford cars. It contains a comprehensive list of part numbers, diagrams, illustrations, cross-references, and other valuable information necessary for any restoration project. The descriptions and specifications contained in this manual were in effect at the time the manual was approved for printing. This manual covers the following models: Mustang, Bronco, Torino, Pinto, Falcon, Fairlane, Futura, Landau, Maverick, Thunderbird, Ranchero, Station Wagon, Ford Full Size (Galaxie 500, LTD, Country Sedan/Squire, Ranch Wagon).

This is not the same as a "Shop Manual". A shop manual is very useful, but simply does not provide the details necessary for most restorations. For example, a shop manual does not provide the full part numbers (i.e. C5ZZ-1007-B), when a part changed, nor diagrams specific to your model car. Instead, it contains partial numbers and only a handful of general illustrations (most may not even be for your model car). On the other hand, the 1965-72 Ford Car Master Parts and Accessories Catalog contains virtually every part number and diagrams specific

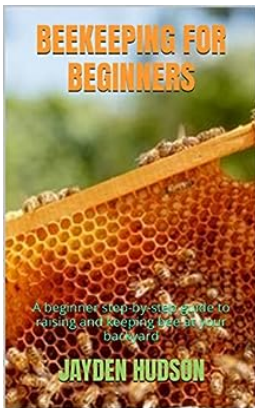

to your vehicle by year and model.

Think of it this way, an Owners Manual has basic information, a Shop Manual has intermediate, and the Master Parts and Accessory Catalog has advance information. If you are considering any restoration project, large or small, this manual will save you time and money in identifying the correct part.
