Even if you've read through the DMV handbook over and over, you might miss a "redundant" question where all of the answers look like they could be correct. And missing just one question is enough to invalidate your entire driver's license application.

- 56 tips and tricks to get you ready for both the written exam and the road test
- Studying hacks to make sure you ace every question on the test, even if you don't have enough time to practice
- The 12 questions most test takers get wrong — answer these the right way if you don't want to fail

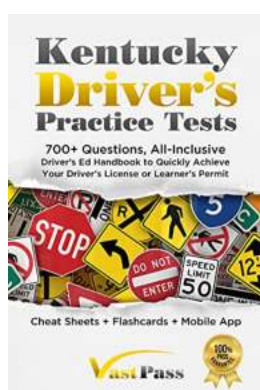

And much more!

Don't waste hundreds or even thousands of dollars on driver's ed courses that barely even help you with the written portion of your driver's license test.
