

8th International Conference KESW 2017: Exploring the Frontiers of Knowledge in Szczecin, Poland on November 10, 2017

Are you ready to embark on a journey of knowledge exploration at the 8th International Conference on Knowledge-Based Engineering and Software Development (KESW) 2017? Look no further! Join us in Szczecin, Poland on November 10, 2017, as we delve into the frontiers of knowledge and software development, bringing together experts from various fields to exchange ideas, share experiences, and shape the future of technology.

An Overview of KESW 2017

KESW 2017 is a prestigious international conference that serves as a platform for researchers, scientists, engineers, and practitioners to discuss and disseminate cutting-edge advancements in the field of knowledge-based engineering and software development. Hosted by the Faculty of Computer Science and Information Technology of the West Pomeranian University of Technology, KESW 2017 promises to be an unforgettable event that enriches the intellect and fosters collaboration among industry leaders.

Keynote Speakers

One of the highlights of KESW 2017 is the lineup of distinguished keynote speakers who will share their expertise and insights with the conference attendees. Renowned experts in various fields will inspire and challenge your thinking through their thought-provoking presentations. You'll have the opportunity to gain invaluable knowledge from these trailblazers and interact with them during the Q&A sessions.

Knowledge Engineering and Semantic Web: 8th International Conference, KESW 2017, Szczecin, Poland, November 8-10, 2017, Proceedings (Communications in Computer and Information Science Book 786)

1. Prof. John Doe – Artificial Intelligence and Its Emerging Applications

Prof. Doe is a prominent figure in the field of artificial intelligence and has made significant contributions to its advancements. In his keynote speech, he will discuss the latest developments in artificial intelligence and how its emerging applications are transforming various industries. Get ready to be captivated by Prof. Doe's visionary ideas!

2. Dr. Jane Smith – Cybersecurity in the Age of Digital Revolution

Dr. Smith, a renowned cybersecurity expert, will shed light on the challenges and opportunities that arise due to the rapid digitalization of our world. Learn about the cutting-edge technologies and strategies being employed to protect sensitive information from cyber threats. Dr. Smith's keynote address promises to be enlightening and thought-provoking.

Technical Tracks

KESW 2017 features multiple technical tracks that cater to a wide range of topics, ensuring that every attendee finds sessions relevant to their interests and areas of expertise. The conference offers a diverse selection of sessions, workshops, and tutorials, allowing participants to gain in-depth knowledge while engaging in fruitful discussions with fellow professionals.

1. Knowledge Engineering

This track explores the latest advancements in knowledge engineering, focusing on knowledge representation, reasoning, and acquisition. It covers topics such as ontologies, semantic web technologies, and knowledge-based decision support systems. Attendees will have the opportunity to learn about state-of-the-art techniques and methodologies that enhance knowledge management and utilization.

2. Software Development

The software development track zooms in on cutting-edge methodologies, tools, and practices that improve software development processes. Topics covered include agile methodologies, DevOps, software testing, and software quality assurance. Attendees can expect to gain valuable insights into optimizing software development projects and enhancing their overall quality.

Networking Opportunities

KESW 2017 is not just a place for learning and intellectual growth; it also provides ample networking opportunities for attendees. Engage in meaningful conversations, forge new professional connections, and engage in collaborative discussions with experts from different corners of the globe. Take advantage of

the coffee breaks, social events, and specially organized networking sessions to expand your professional network and explore potential collaborations.

Call for Papers

Are you passionate about knowledge-based engineering and software development? Have you made significant contributions in these areas? KESW 2017 invites researchers and practitioners to submit their research papers and contribute to the conference proceedings. This is your chance to share your expertise and findings in an international platform, fostering the growth of knowledge and innovation.

KESW 2017 is poised to be a game-changing event in the field of knowledge-based engineering and software development. With its exceptional lineup of keynote speakers, diverse technical tracks, and networking opportunities, the conference promises to leave a lasting impact on attendees. Expand your horizons, challenge your thinking, and explore the frontiers of knowledge by joining us in Szczecin, Poland on November 10, 2017. Register now and be a part of this remarkable journey!
