The author spent a year discovering travel destinations around Pattaya and picked out the best places that were found. The personally handpicked places were intensively described to justify why they are indeed worth traveling. Photos

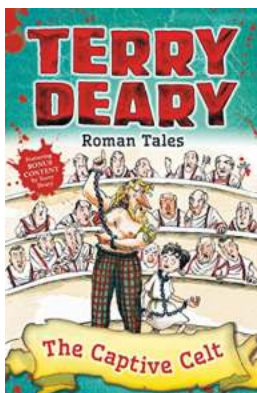

are included in the new hard cover version as well. The author made this book having an initial objective in mind which is to show travelers Pattaya in ways that hasn't been shown before. After a year of adventure and discovery in Pattaya, the author realized what other tourists have been missing for aside from Pattaya's infamous club scene, Pattaya is rich with nature's beauty as well.

Tourism in Pattaya is limited. Not all tourist locations are openly advertised due to a "travel mafia" system that exists. The travel mafia limits advertising of all available locations in the fear of stepping over other's commissions and turfs hence travel brochures and general Thai travel promotion hardly mention locations that won't get them commissions. After a year of discovering, the author realized how much Pattaya has to offer and yet has been untapped due to poor advertising.
