Safire Waters and Igneous Stone have never had a normal life: flying in sarcastic AI ships, learning to become teen warriors, and solving the most important mystery with minimal clues. Now, their obstacles are skyrocketing on planet Azul.

Safire is trapped in a stressful and violent life that she never wanted. Her problems consume her every thought and make her oblivious to those she loves. However, she must throw aside her doubts and take care of her duties as the daughter of the Warfare General.

“Magmian” has a new meaning for Igneous. His race separates him from everyone he wants to protect, and his anger has been fueling the inner Magmian fire within. He will still do anything to save those he loves no matter how difficult, and no matter what the cost.

These two are inevitably strung together and must battle as saviors once again. But do they have the willpower to save the universe? Can they break the chains that once held them down? Or will their journey come to an end in the hands of Obsidian Slag?
