Step-by-Step Bargello Tutorial for Beginners

In this section, we will provide you with a detailed step-by-step tutorial on creating your first Bargello needlepoint project. Let's get stitching!

Step 1: Choosing a Pattern

The first step is to choose a Bargello pattern that suits your skill level and preferences. You can find a wide range of patterns online or in needlepoint books. Beginners should start with simple designs to grasp the technique.

Step 2: Preparing the Canvas

Next, prepare your canvas or fabric by cutting it to the desired size. It is crucial to ensure that the fabric is properly secured in an embroidery hoop or frame to prevent wrinkles and ensure an even stitching surface.

Step 3: Selecting Threads

Choose your thread colors based on your pattern and personal preference. It is recommended to start with two or three colors for your first project. Make sure to separate the strands of the embroidery floss and thread your needle with the desired color.

Step 4: Starting the Stitch

To start stitching, bring your needle from the backside of the canvas to the front, leaving a small tail at the back. Begin by stitching your chosen pattern, following the instructions and color scheme carefully.

Step 5: Stitching Techniques

Bargello uses a variety of stitching techniques, including the basic Tent stitch and more advanced stitches like the Flame stitch or Hungarian Ground stitch. Each pattern will require different combinations of these techniques, so follow the pattern instructions accordingly.

Step 6: Finishing Touches

Once you have completed your Bargello design, secure any loose threads and trim excess threads. Iron your finished project to remove any wrinkles and enjoy the fruits of your needlepoint labor!

Nothing is more delicate and beautiful than needlepoint worked in the long flowing stitches. The long stitch is one of the easiest techniques to use in working a needlepoint project. Sometimes called the bargello stitch, it is worked straight- either horizontally or vertically on needlepoint canvas, and looks like a smooth satin embroidery stitch when placed in groups side-by-side.

Bargello needlepoint, which originated in sixteenth-century Italy, employs a simple stitch that is repeated over and over again to form a distinctive geometric

pattern in vibrant colors. Our mothers and grandmothers whiled away their time with it in the 1960s and 70s, and Bargello is now enjoying a revival among crafters.

Bargello is easy to master, quick to achieve and very addictive. The stitches take on a rhythm of their own which makes it extremely relaxing and before long you'll be measuring your days in inches not hours.
