If you've taken any of our self-guided audio walking tours of beautiful historic cities in Europe I'm sure you're familiar with the Discovery Walks approach to exploring a city. And this book is the written version of the audio walk through Copenhagen that was produced by Worldwide Discovery Walks and is available for download from our web site (www.worldwidediscoverywalks.com).

We have carefully constructed what we believe to be a perfect walking route that will lead you along some of the city's most interesting and historical streets and past many of its most memorable locations. This book is not designed to give an exhaustive and tiring description of every site along the walk but rather to provide concise summaries of each site's history and its importance in the culture, lifestyle and design of this marvelous city. We also provide detailed walking instructions on how to stroll between each spot along the route so that if you're fortunate enough to visit Copenhagen one day you'll be able to navigate the route with ease, like a native.

Begin at the starting point of our walk, the New King's Market, and read the chapters in order to imagine the experience as you would if you were actually in Copenhagen. Or, using the Table of Contents, find the site you'd like to explore and then go to the indicated chapter for a detailed description of the site and its

history. You can then locate that spot in the city by simply consulting the customized map included in this book. And using the zoom feature of the map you can view the entire walking route at one time or zoom in on any particular location.

If you enjoy this book we hope you'll also try some of the other books available in the Discovery Walks series.
