Amherstburg is located near the mouth of the Detroit River in Essex County about twenty-five kilometers south of the United States city of Detroit, Michigan. The British military garrison, Fort Malden, was established here in 1796. The town was developed by Loyalists who were granted land by the Crown in Ontario after the British lost the American Revolutionary War. The Loyalists built many of their houses in the French style of a century before, giving the new town a historic character.

The local public high school in Amherstburg is General Amherst High School and is named after Jeffery Amherst, 1st Baron Amherst of Montreal, who served as an officer in the British Army and as Commander-in-Chief of the Forces. Amherst is best known as the architect of Britain's successful campaign to conquer the territory of New France during the French and Indian War when he led the British attack on Louisbourg on Cape Breton Island in June 1758. Amherst led an army against French troops on Lake Champlain, where he captured Fort Ticonderoga in July 1759, while another army under Sir William Johnson took Niagara also in July 1759, and James Wolfe besieged and eventually captured Quebec with a third army in September 1759.

From July 1760, Amherst led an army down the St. Lawrence River from Fort Oswego, joined with Brigadier Murray from Quebec and Brigadier Haviland from

Ill-aux-Noix in a three-way pincer, and captured Montreal, ending French rule in North America on September 8. In recognition of this victory, Amherst was appointed as the first British Governor General in the territories that eventually became Canada.

From his base at New York, Amherst oversaw the dispatch of troops under Monckton and Haviland to take part in British expeditions in the West Indies that led to the British capture of Dominica in 1761 and Martinique and Cuba in 1762.
