Building an Effective Postcard Campaign

Now that you understand the advantages of postcard marketing, let's delve into the steps you can take to create a successful postcard campaign for your MLM or network marketing business.

1. Define your target audience

Before designing your postcard, it's crucial to identify your ideal prospects. Who are they? What are their pain points? Tailoring your message to resonate with your target audience will significantly increase your response rates.

2. Craft a compelling headline

The headline is the first thing your prospects will see, so make it attention-grabbing. Use powerful and persuasive language that speaks directly to their

desires and offers a solution to their problems.

3. Personalize your postcards

People appreciate personalization. Include the recipient's name, if possible, and address their pain points directly. This will create a sense of connection and increase the chances of a positive response.

4. Use captivating visuals

A well-designed postcard with eye-catching visuals can make a significant impact. Use high-quality images, vibrant colors, and design elements that align with your MLM or network marketing business. Remember, the goal is to capture attention and leave a lasting impression.

5. Include a compelling call-to-action

Guide your prospects on the next steps they should take. Whether it's visiting your website, attending a presentation, or contacting you directly, a clear call-to-action will prompt your prospects to take action.

Maximizing Your Postcard Campaign's Effectiveness

While creating a well-crafted postcard is essential, there are additional strategies you can implement to maximize your campaign's effectiveness.

1. Track your results

Implement tracking methods to measure the performance of your postcard campaign. This will allow you to identify which strategies work best, enabling you to optimize your future campaigns for even better results.

2. Follow up

Don't overlook the importance of follow-up. Reach out to those who responded positively or showed interest in your postcard. Building a relationship and providing further information can significantly increase the likelihood of them joining your MLM team.

3. Test various postcard designs

Experimenting with different postcard designs can help you identify which style and layout resonate best with your target audience. A simple tweak can make a substantial difference in response rates, so don't be afraid to try new approaches.

4. Integrate with digital marketing

While postcard marketing can be highly effective on its own, integrating it with digital marketing channels can amplify your reach. Combine your postcard campaign with email marketing, social media promotions, or targeted online ads to create a comprehensive marketing strategy that covers all bases.

Fed up not having quality leads?

Are you in a MLM company you love, but just can't find REAL prospects to talk to?

Tried 'online' leads but found you just wasted your time and money?

Many networkers are well past the 'warm market' stage, and are struggling to find success. It seems the entire world has gone online and the problem that networkers face is sticking out in an ever increasing ocean of websites, mobile apps, opt-in forms, blog posts, Facebook Likes, Youtube movies and Tweets. It never ends.

There is alternative. There is another way.

Because the world HAS gone online, good old fashioned Direct Mail is making a comeback. Why? Because no one gets 'real' mail anymore. You have zero competition!

And what's more real than a picture postcard?

NOTE:

What This Book is NOT about: this book in no way teaches you to send those ugly, tacky, pre-printed, glossy pictures of fast expensive cars or mansions, or YELLOW 'print your own' postcards. NO, NO, NO!

If you are engaged in postcard marketing, buying glossy tacky 'in your face' MLM style postcards and mailing them out – or worse – paying to have them mailed out – I'll show you a method that will increase your success by a massive amount – because I guarantee your message will be read if you use the method I teach.

Or, if you are prospecting with one of those 'print your own' cards at the local Office Max, mailing out thousands until you're broke by sending ugly cards – you will be so happy switching to my method because it will save you time, money, you'll mail out less cards and get massive more results.

Again, because I guarantee your prospect will read your message.

I will show you a method that combines two of the most important recruiting factors for success in MLM:

Mass Recruiting

and

Personalization

And NO – this is not about using computer 'hand writing fonts'!!!

No, I'll show you a method to recruit massively with postcards, in a very personalized way for your prospect to find it impossible to not read your message and make a call.

This works. This book is based on my famous postcard seminars that were part of \$10,000 MLM insider's weekend training. You will get this same information for less than \$10.

Full Disclosure: This is a short, to the point book. It's not full of padding or fluff, (however, I do trace for you how I discovered my into Direct Mail for MLM Recruiting by a presidential fundraiser).

It's a 'How To' book. You are paying for the system, the magic, and the fact that you won't need any other information to get started.

I have included low or no budget methods as well.

Please NOTE: This book is for MLM or Network Marketing recruiting – it's not about postcard 'marketing' for non-MLM business. The information here is for network marketers who want to build downlines and offer a system to their team that does not rely on 'buying leads' from the internet and telemarketing 'survey leads', 'real time leads', 'fresh leads', or any of the other scammy descriptions of absolutely terrible leads for sale by lead companies.

Looking for a Low cost, but highly efficient network marketing tool way to get REAL leads? This is it.

This system works in USA, Canada and Europe.

How to Prospect and Recruit using Postcards for your MLM or Network Marketing Business - The Low cost Prospecting and Recruiting Tool that Out Performs Online Methods is a complete method. Includes the way to personalize the cards, where to buy them at the best prices, how to produce them, where to get the lists to mail your cards to, as well as how to do this on a low or no budget.

You will also get a '24 hour' message to load up on your voice mail system to take all the calls you'll get from your prospects.

If you have run out of ways of recruiting, if your upline is no help, take action yourself and invest in your business by using this book on how to recruit and build a team with postc
