Learning to read is a crucial skill for every child. It opens up a world of possibilities, enabling them to explore new worlds, acquire knowledge, and express their thoughts and ideas. But teaching children to read can sometimes be a challenging task.

However, with the Sight Word Flash Cards with Critters Learning Essentials Math Reading Flashcards, learning to read becomes a fun and engaging experience for children of all ages!

The Power of Sight Words

Sight words, also known as high-frequency words, are words that occur frequently in written texts. They are essential for building a strong foundation in reading, as they cannot be easily decoded phonetically. Therefore, it is crucial for children to recognize these words on sight to enhance their reading fluency and comprehension.

118 pages. Discover the Math & Reading Flashcard Series. Flash cards with attitude and critters. The author, Robert Stanek, collected sight word lists, wall

word lists, and vocabulary lists while his four children attended elementary school.

The Sight Words Plus system incorporates the many words on those many lists, gathered over many years. Knowing sight words and wall words is essential for reading fluency and classroom learning.

This book is complete with 100 of the most commonly used verbs, organized into 6 different word sets for easier learning. Sight words are words that are used frequently but may be difficult to sound out or may be confused with other words. Because children often have trouble reading sight words phonetically, they can benefit instead from the whole word approach in which they memorize each word.

Wall words are words that teachers commonly emphasize in the classroom to improve reading and learning skills. Although many of these words are used in the classroom, they may not be used regularly at home and children can benefit greatly from memorizing each word.

With repetition and context clues, your child should quickly master these important verbs.
