Plastic canvas is a variation of needlepoint and other canvas work crafts, such as embroidery. Because plastic canvas mesh is rigid, it is perfect for creating 3-dimensional objects such as tissue box covers, small jewelry and trinket boxes, handbags, magnets, dolls, vases, napkin holders, wind chimes and many other types of both decorative and useful items. Plastic canvas comes in different colors and with various size holes for different thicknesses of yarn. As with any textile canvas, the hole size is called count. For example, 10-count plastic canvas mesh has 10 holes per linear inch. The most common sizes are 5, 7, 10, and 14 count. It is sold most often in sheets; pre-cut shapes are available in circles, triangles and novelty shapes such as butterflies, hearts, and stars.
