Peace comes with a price.

A new day is dawning on the liberated Capitol.

Logan and Reina have worked hard to free the minds of everyone under The Circle's rule. No longer is it a world of haves and have nots. People can now make their own choices and forge a future for their land as they deem fit.

But having grown weary of the battle, Logan and Reina aren't ready to lead. Who, then, is worthy? The last thing the couple wants is their new regime to end up in unrest again.

Their only choice may be turning to the last person standing within The Circle-- a scientist and inventor who holds the secrets of the past.

Lasting peace is within sight, but at a grave cost.

Will turning over their brave new world really be Logan and Reina's best option?
