Step-by-Step Instructions for Crafting your Wreath

1. Gather Your Materials:

Start by collecting all the necessary supplies. This includes the wreath base, floral wire, wire cutters, hot glue gun, and the materials you've chosen for your specific design.

2. Prepare the Base:

If you're using a foam wreath base, cover it with greenery to create a natural look. You can use floral wire or hot glue to secure the greenery in place. If

you're using a grapevine wreath, you can skip this step.

3. **Add the Focal Point:**

Choose a centerpiece for your wreath, such as a large bow or a prominent decoration. Attach it securely to the base using floral wire or hot glue. This will serve as the focal point of your design.

4. **Fill in with Greenery:**

Add greenery around the wreath, working your way from the focal point outward. This will give your wreath a lush and full appearance. Secure the greenery using floral wire or hot glue.

5. **Add Decorative Elements:**

Now it's time to add the decorative elements that will make your wreath truly unique. Whether it's artificial flowers, pinecones, berries, or ribbons, arrange them according to your desired design and secure them to the base.

6. **Finishing Touches:**

Take a step back and assess your wreath. Make any necessary adjustments and ensure that everything is securely attached. Trim any excess greenery or wire if needed. Once you're satisfied with the final result, your season greeting wreath is ready to be displayed!
