Contrasting his experience in Lilliput, Gulliver finds himself in Brobdingnag, a land of giants. Here, he faces the challenges of being a miniature person in a society of giants. Through this extraordinary situation, Swift highlights the flaws and shortcomings of human beings, examining our morals and ethics.

In Laputa, Gulliver encounters a floating island populated by intellectuals who are lost in their abstract thoughts and theories. This satirical portrayal of the pursuit of knowledge emphasizes the importance of practicality and the dangers of intellectual detachment.

The final destination, the land of the Houyhnhnms, introduces Gulliver to a society ruled by intelligent horses. Here, he reflects on humanity's barbarism and the noble characteristics of these horse-like beings, raising questions about the nature of civilization and our place in the world.

Gulliver's Travels describes the four voyages of Lemuel Gulliver, a ship's surgeon. In Lilliput he discovers a world in miniature; towering over the people and their city, he is able to view their society from the viewpoint of a god. However, in Brobdingnag, a land of giants, tiny Gulliver himself comes under observation, exhibited as a curiosity at markets and fairs. In Laputa, a flying island, he encounters a society of speculators and projectors who have lost all grip on everyday reality; while they plan and calculate, their country lies in ruins. Gulliver's final voyage takes him to the land of the Houyhnhnms, gentle horses whom he quickly comes to admire - in contrast to the Yahoos, filthy bestial creatures who bear a disturbing resemblance to humans. This text, based on the first edition of 1726, reproduces all the original illustrations and includes an afterword by Robert Demaria, Jr, which discusses the ways Gulliver's Travels has been interpreted since its first publication.
