

# Here's How To Easily Recruit Doctors Into Your MLM or Network Marketing Team

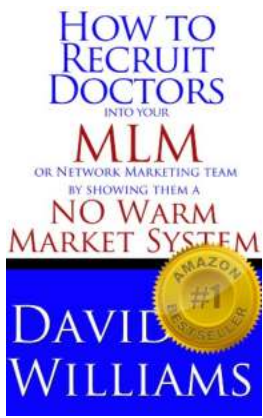

Recruiting professionals into your MLM or network marketing team can be a challenge. However, tapping into the potential of doctors can greatly enhance your chances of success. With their extensive knowledge, credibility, and network, doctors can be valuable assets in building a thriving MLM team. In this article, we will show you effective strategies to recruit doctors and make them a part of your MLM or network marketing journey.

## Understanding the Value of Doctors in MLM

Doctors are highly respected professionals who have spent years acquiring knowledge and skills in their field. They possess credibility and influence over a large patient base, which can be advantageous when it comes to spreading the word about your MLM business. By successfully recruiting doctors, you not only gain their expertise but also tap into their network of patients who may be interested in the products or services your MLM company offers.

## Build Relationships with Doctors

The key to recruiting doctors into your MLM team is building genuine relationships with them. Networking events and conferences specific to the medical industry are excellent places to meet doctors and start building connections. Engage in conversations about their profession, ask for advice, and genuinely show interest in their work. Listening attentively and understanding their challenges and goals will help you develop a rapport based on trust and respect.

### Show the Benefits of MLM for Doctors

To convince doctors to join your MLM or network marketing team, you need to highlight the benefits that align with their professional goals. Emphasize the opportunity to earn an additional income stream that complements their medical practice. Doctors often have limited time due to their demanding schedules, so emphasize the flexibility that MLM offers. Presenting the potential for residual income can also be appealing, as it allows them to generate passive income while focusing on their medical career.

### Provide Education on MLM

As doctors may not be familiar with MLM or network marketing, it is essential to provide them with education on the industry. Organize events or webinars specifically tailored to healthcare professionals, where you can explain the concept of MLM, its advantages, and the potential it holds for them. Address any

concerns or misconceptions they may have and provide examples of successful doctors who have ventured into MLM and achieved financial success.

## **Show the Quality of Your MLM Products**

Doctors prioritize the wellbeing and health of their patients. To gain their trust, you must demonstrate the quality and effectiveness of the products or services your MLM company offers. Provide scientific research, testimonials from satisfied customers, and any certifications or endorsements your products have received. The credibility and evidence you present will help convince doctors of the value your MLM business brings to their patients.

## **Highlight High-Earners in Your MLM Team**

A successful MLM team comprises individuals who have achieved significant financial success. Highlight the high-earners in your MLM company and demonstrate how doctors can attain similar levels of success by leveraging their existing network and professional credibility. Show them real-life examples of doctors who have managed to build a thriving MLM team while maintaining their medical practice.

## **Create Collaborative Opportunities**

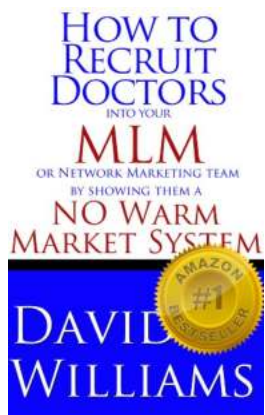

Collaborating with doctors can be mutually beneficial. Offer opportunities for doctors to provide educational workshops, seminars, or consultations within your MLM team. This not only showcases their knowledge and expertise but also helps team members understand the medical aspects related to the products or services they offer. Such collaborations will reinforce the mutual value that doctors and MLM distributors bring to each other.

## **Provide Support and Training**

Once doctors join your MLM team, it is crucial to provide ongoing support and training. MLM may be a new venture for them, so ensure they have the necessary tools and resources to succeed. Offer coaching sessions, training materials, and mentorship opportunities. By demonstrating your commitment to their success, you enhance their motivation and loyalty towards the MLM team.

Recruiting doctors into your MLM or network marketing team can significantly elevate your chances of success. By building relationships, showcasing the benefits of MLM, providing education, emphasizing product quality, highlighting success stories, creating collaborations, and offering ongoing support, you can effectively recruit doctors and leverage their credibility and network to build a thriving MLM team.

Remember, patience and persistence are key. Not all doctors may immediately grasp the opportunity MLM presents. However, with the right approach and consistent effort, you will find doctors who are open to exploring the benefits MLM can bring to their career and financial goals.

Not working the phone

This book is going to teach you an amazing system to recruit Doctors and an amazing system for you to build a huge, profitable and unstoppable leg under them - without the Doctor using any of their warm market, 'buying leads' or touching the phone!

Full Discloser: This is a short book. It's less than 50 pages long. It contains no fluff or padding. It's direct and to the point. The system contained is worth hundreds of thousands of dollars in sales, and could retire you. Really. Forget the low price of \$8.99, forget the number of pages. This book will cover, step by step, and in very detailed and specific language:

How to recruit Doctors

The 'invisible' secret source of Doctors without a practice that are begging for something like what you will be able to show them

How to recruit busy Doctors with a practice and zero time

How to avoid the 'I don't want to go to my contacts/warm market' objection because you will be teaching them a system that requires ZERO warm market

And No 'buying leads'!

How to fill, yes FILL, meeting rooms with prospects all eager to join and try your products

NO conference calls, webinars, websites, Fanpages, autoresponders etc.

This is the full system, from the free ads you will place to the words on the marketing material you will print. This approach is very inexpensive to follow, quick and easy to implement, and very straight forward.

Also included are the phone scripts and person to person scripts you need to use when speaking to the Doctors, their receptionists, and to use in getting the appointment.

Forget all the 'usual suspects' techniques, this is not about dropping off DVDs, inviting them to conference calls, or creating special 'Doctors only' presentations. Forget all of that, and forget all of your old scripts and ads.

This system works for Doctors and requires NO Warm Market – I know I said that above, but it's very important you know this.

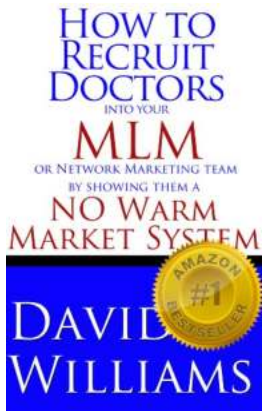

You don't need any paid advertising, Facebook, Internet, Twitter etc., this is all offline, local, and affordable.

No one has taught you this before. Guaranteed.

I'm going to show you where to get Doctors and how to approach them. This book will reveal to you a hidden world of Doctors who are not busy.
