Merch by Amazon - the t-shirt business 2.0

The desire for self-determined work is becoming increasingly noticeable. However, many people believe that the step into self-employment - whether full-time or part-time - involves a lot of effort and money. However, there are already many business models that make it easier for new entrepreneurs to start up their own business. This does not always mean reinventing the wheel. Instead, existing infrastructures of successful companies can be used for themselves. In other words:

times have never been better for starting something on your own

In addition to Fulfillment by Amazon (FBA) and Kindle Direct Publishing (KDP), Amazon offers other ways to use the platform to build your own online business: With Merch by Amazon (MBA), the e-commerce giant has created a program that allows users to create t-shirts, hoodies and other products with their own design and sell them directly through Amazon. The biggest advantage of this is that neither a warehouse nor a lot of start-up capital is required.

Merch by Amazon gives you the opportunity to build up your own (part-time) business. The business model can be operated independent of location, with flexible time management and (almost) no start-up capital. MBA is one of the best ways to enter the shirt business and offers great opportunities to build a remote business. No matter if you want to travel around the world as a digital nomad or if you want to earn a few Euros on the side - all this is possible with MBA.
