## Step By Step Drawing Techniques

Whether you are a beginner or an experienced artist, these step by step drawing techniques will help you improve your chibi cartoon animal skills.

### 1. Start with Basic Shapes

Begin by sketching the basic shapes of the chibi animal you want to draw. Use circles, ovals, and rounded rectangles to represent the head, body, and limbs. These shapes will serve as a guide for the proportions and overall structure of your character.

### 2. Add Facial Expressions

The eyes and mouth are crucial for capturing the cuteness of chibi characters. Experiment with different eye shapes and sizes to convey various emotions. For example, big, round eyes can make your character look innocent and adorable, while small, squinty eyes can give a mischievous or playful expression. Similarly, the shape and placement of the mouth can greatly impact the overall mood of your character.

### **3. Define the Features**

Once you have the basic shapes and facial expressions in place, it's time to add more details to your chibi cartoon animal. Start by defining the ears, tail, and any other distinct features of your character. Give them unique characteristics and make sure they complement the overall cuteness of the design.

### **4. Play with Proportions**

Chibi characters are known for their exaggerated proportions, so don't be afraid to have some fun with it. Make the head bigger in relation to the body, shorten the limbs, or enlarge the eyes. By playing with proportions, you can create a sense of whimsy and make your chibi cartoon animal even more adorable.

### **5. Add Color and Shading**

Once you are satisfied with the pencil sketch, it's time to bring your chibi cartoon animal to life with color. Use colored pencils, markers, or digital tools to add vibrant hues. Consider the lighting and decide where the light source is coming from, so you can add appropriate shading to give your character depth and dimension.

### **Practice Makes Perfect**

Remember, learning how to draw chibi cartoon animals better is a skill that requires practice and patience. The more you draw, the better you will become.
