More powerful Apple silicon processors, the M1 Pro and M1 Max are included in the 2021 MacBook Pro's M1 Pro and M1 Max variants. The new MacBook Pros are available in 14.2-inch or 16.2-inch sizes. This year's MacBook Pros are, in a nutshell, the greatest ones yet!

The 1080p webcam is hidden in a notch at the top of the display, which is surrounded by thin 3.5mm frames on the sides and top. Using ProMotion technology, the displays' refresh rates may be adjusted from 24 to 120 Hz. P3 Wide, which displays genuine colors, and True Tone, which adjusts the screen's white balance to match the ambient illumination, are two more display technologies worth mentioning.
