Pattern Transfer

Using the pattern templates, transfer the outline of your chosen animal onto the leather. Ensure the lines are clear and easy to follow.

Cutting and Shaping

With the help of a cutting knife or scissors, carefully cut along the outline of the animal shape. Take your time with this step to ensure precision.

Tooling and Carving

Once the basic shape is cut out, you can use various leatherworking tools to add texture and details to your leather animal. You can carve patterns, emboss designs, and create lifelike features using specialized tools.

Assembling and Stitching

Now is the time to bring your animal to life. Stitch the various parts together using a stitching groover, needles, and thread. Patience and precision are key here to create a seamless finish.

Finishing Touches

Once your leather animal is assembled, it's time to add the finishing touches. Sand down any rough edges with sandpaper, dye the leather to your desired color, and apply a suitable leather finisher to protect and enhance the final product.

Let Your Creativity Soar
