Materials Needed:

To make your large scale wall hanger table runner plant holder, gather the following materials:

- Wooden dowels
- Jute rope

- Plant pots or containers
- Drill
- Screws
- Paint or stain (optional)
- Painter's tape (optional)

Step 1: Measuring and Cutting

Start by measuring the desired length of your wall hanger. Consider the available wall space and the number of plants you wish to display. Once you have the measurements, cut the wooden dowels accordingly. These dowels will serve as the base of your wall hanger.

Step 2: Creating the Framework

Using a drill, create holes in the wooden dowels to attach the jute rope. Ensure that the holes are evenly spaced and aligned on each dowel. The number of holes will depend on the plants you intend to display.

Step 3: Attaching the Jute Rope

Thread the jute rope through the holes in the wooden dowels, making sure to leave enough excess rope on each end for hanging. Use knots to secure the rope in place, preventing the dowels from sliding out.

Step 4: Preparing the Plant Containers

If your plant containers do not have holes for drainage, use the drill to create small holes at the bottom. This will prevent water from pooling in the containers and damaging your plants.

Step 5: Hanging the Wall Hanger

Find the perfect spot on your wall to hang the large scale wall hanger table runner plant holder. Use screws to secure the dowels onto the wall, making sure they are sturdy and can bear the weight of the plants.

Step 6: Adding the Plants

Place your potted plants or containers onto the dowels, arranging them as desired. You can mix different types of plants or stick to a specific theme, such as succulents or flowering plants. Get creative and experiment with different sizes and shapes to achieve a visually pleasing arrangement.

Step 7: Optional Finishing Touches

If you want to add a personal touch to your large scale wall hanger table runner plant holder, consider painting or staining the wooden dowels. You can also use painter's tape to create patterns or designs before applying the paint or stain.

Once the paint or stain is dry, step back and admire your stunning and beautiful large scale wall hanger table runner plant holder. The combination of natural greenery and rustic wooden dowels will transform any wall into a focal point of your home.

The large scale wall hanger table runner plant holder is an exceptional way to infuse nature into your living space while adding a touch of elegance. Creating a wall hanger allows you to showcase your plant collection and turn an ordinary wall into a captivating display of life and color. So, grab your tools, gather your materials, and let your creativity flourish as you embark on this exciting DIY project.
