The girl's English accent was flat, exhausted. Like she didn't expect anyone to care about what she was saying; like she wasn't sure why she was bothering at all. But then, she was British – and, apparently, Northern. And something terrible was happening in the North, and if she was thinking nobody had come to their rescue so far, she was right.

It's 2034 and the United Kingdom is no more. Now there is only North and South, and the vast concrete Wall that separates the two.

A group of misfit outcasts have saved the North from annihilation – and started an unwinnable war with the brutal, totalitarian Board. Two months later, as the future grows ever bleaker, a mysterious international agency offers a final glimmer of hope.
