Tenner can swim like a fish and can see in the dark and hear from a distance. Seven's skin camouflages to match whatever is around him. Cabot hasn't shown signs of any unusual power—yet.

Then one day Birdie finds a map among her father's things that leads to a secret stash. There is also a note:

Go to Estero, find your mother, and give her the map.

The five have lived their entire lives in isolation. What would it mean to follow the

map to a strange world full of things they've only heard about, like cell phones, cars, and electricity? A world where, thanks to their parents, being supernatural is a crime?
