

Messy Life Body Swap Romance: A Tale of Love and Identity

I never thought it would be difficult to find love, but this has been a journey. When I was dating men in college, some were more okay with the fact that I'm transgender than others. I was pre-op back then and wasn't exactly looking for the love of my life, just great relationships with people.

I had my gender confirmation surgery right before starting my first big girl job as a kindergarten teacher at a local elementary school. One year later, I met the father of one of my students. James was way too good looking to be single, had a great job, and of course loved his children. Even though I am the shy type, he made me feel different than others and I opened up more.

He was completely fine with the fact that I was born a boy and months later confessed his love. After getting a ring on my finger, I couldn't want to be a loving wife and great mother to his children. I'm so lucky to have a great love story with my match!
