Winning the lottery is what everyone dreams of, but for these lucky winners, their dreams turned into nightmares. Turns out losing a fortune is much easier than winning one!

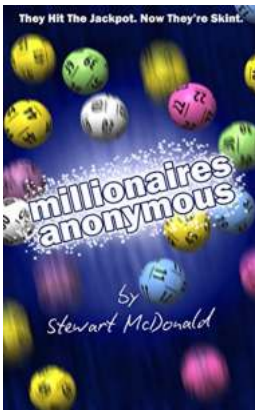

Fortunately, help is at hand. At Millionaires Anonymous people are encouraged to discuss their stories and problems, and with the help of a twelve-step program,

the former millionaires are guided onto a path of enlightenment and self-fulfilment, learning along the way that money doesn't buy happiness. Or does it?

Having formed a secret syndicate, the group continue to gamble what little money they have left, pinning all their hopes on winning the jackpot again. The odds on that? Two-hundred and eighty-three billion to one. It's a long shot, but it could happen, and if it did you'd better hope your syndicate is a group of mentally stable and well-rounded individuals... but more importantly, that you can find the bloody ticket!
