There is no real biography of Alexandre Dumas. Nobody has collected and sifted all his correspondence, tracked his every movement, and pursued him through newspapers and legal documents. Letters and other papers (if they have been preserved) should be as abundant in the case of Dumas as they are scanty in the case of Molière. But they are left to the dust of unsearched offices; and it is curious that in France so little has been systematically written about her most popular if not her greatest novelist. Many treatises on one or other point in the life and work of Dumas exist, but there is nothing like Boswell's Johnson or Lockhart's Scott. The *Mémoires* by the novelist himself cover only part of his career, *Les Enfances Dumas*; and they bear the same resemblance to a serious conscientious autobiography as *Vingt Ans Après* bears to Mr. Gardiner's *History of England*. They contain facts, indeed, but facts beheld through the radiant prismatic fancy of the author, who, if he had a good story to tell, dressed it up "with a cocked hat and a sword," as was the manner of an earlier novelist. The volumes of travel, and the delightful work on Dumas's domestic menagerie, *Mes Bêtes*, also contain personal confessions, as does the novel, *Ange Pitou*, with the *Causeries*, and other books. Fortunately Dumas wrote most about his early life, and the early life of most people is more interesting than the records of their later years.
