With Nerdy Nursery Rhyme, your little ones won't just be learning the alphabet or counting numbers; they'll be diving into the exciting worlds of astronomy, biology, chemistry, and more. Each rhyme is carefully crafted to introduce basic concepts of various scientific disciplines in an age-appropriate and entertaining manner.

Imagine your child effortlessly reciting a rhyme about constellations while connecting the dots in the night sky. Or singing along to a verse about the water cycle as they splash and play in a puddle. Nerdy Nursery Rhyme brings science and wonder into their everyday lives.

Nerdtastic Nursery Rhymes:

Let's take a look at some of the exciting nursery rhymes offered by Nerdy Nursery Rhyme:

1. "Einstein's ABCs"

This catchy rhyme introduces the alphabet through famous scientists and their groundbreaking discoveries. Your child will become familiar with names like Albert Einstein, Marie Curie, and Galileo Galilei while learning the letters of the alphabet.

2. "Robo Count"

Get your little ones excited about numbers with "Robo Count." This dynamic rhyme teaches counting through the adventures of a friendly robot. From one circuit to ten gears, your child will be counting along in no time.

3. "Chemistry Cha-Cha"

Ignite the love for chemistry in your child's heart with the "Chemistry Cha-Cha." Through this rhythmical rhyme, they'll learn about the periodic table, chemical elements, and the reactions between them. Watch them boogie along while discovering the wonders of chemistry.

4. "Space Odyssey"

Blast off on an intergalactic adventure with "Space Odyssey." This cosmic rhyme takes your child on a journey through the solar system, introducing them to planets, astronauts, and the mysteries of the universe. Prepare to be amazed as they serenade you with astronomical facts.

5. "Dino Stomp"

Travel back in time to the era of dinosaurs with the lively rhyme, "Dino Stomp." Your child will dance along with friendly dinosaurs while discovering various dinosaur species, their characteristics, and the concept of extinction.

Mars is a cold, forbidding planet, but humans still want to travel there.

How will we prepare for humans to survive on Mars, much less build a colony there? Discover the possibilities with this engaging picture book!

The Rocket that Flew to Mars is a space-age version of The House that Jack Built.

In this entertaining story, young readers will see how a rocket could carry a 3D printer that can build a biodome that is pressurized by an air system powered by a solar array that is maintained by a robot. But when the robot accidentally tracks a bit of dirt inside, something surprising happens!

Learn how life on Mars might, possibly, come to be--when The Rocket Flew to Mars!

This is a fun, educational book for preschoolers, kindergarten and elementary students, and anyone who loves to read about space exploration. Teachers will love adding this picture book to their STEM/science units!

Ideal for children ages 4-8.

Get this book now and start planning your space adventures today!
