Father takes six-year-old daughter to see summer production of Into the Woods thinking in his ignorance it would be appropriate for children because it's about fairy tales. Problem is that her mother died when daughter was three weeks old, and seeing the show opens the floodgates to almost seven years of unresolved grief for father and daughter both.

Next morning, daughter wakes father and begs him to take her to see it again. And the same the next morning, and the next after that. And so begins a three-week journey into their own dark and scary woods.

Out of the Woods: A True Story is about the power of music, theatre and storytelling to open doors and cast light into dark corners. And the power of trust and friendship, as cast members of the show embrace their journey and show how true, life-changing catharsis can happen when you least expect it.
