Join us on this you-are-there photographic journey with compelling images and insightful commentary. Our journey into rural Peru took us to many places where ancient languages and cultures are alive today. Language is culture. 25% of Peruvians speak as their first language Quechua, the language of the Incas or Aymara a culture with pre-Inca roots. For all of us, language shapes how we think and how we look at the world. The elements of the Inca cultures remain today and can be seen in how they use the land, their art, their buildings and tools, as well as their relationships and social structure. And Peru is one of the most biologically diverse countries from the glacial Andes to the coastal deserts to the densest rainforest in the Amazon.
