Part travelogue, part insightful memoir, Sand, Sun and Surprises memorialises the decades that Prof ES Akpata spent living and working as a Nigerian expatriate in oil-rich Middle East. A top scholar in the field of dental surgery, he leaves Nigeria during the recession of the 1980s to take up, initially, a temporary job in the region, but ends up spending twenty-three years of academic activities in Saudi Arabia and Kuwait. Sand, Sun and Surprises demystifies the culture of the Arab world; it is a fascinating take, filled with moments of humour--like the one time when he thinks his car is stolen in Kuwait, and after searching for hours, finds it in the same spot he left it. The author describes a region transformed from harsh desert conditions to gleaming cities made of glass and steel, elegant buildings, and five-star hotels and restaurants; changes that seemed to have

occurred in an instant. This is a practical book for those who wish to understand the Middle East or visit the region for work or leisure.
