Seize The Day is based on a young African American man's life experiences and some of the obstacles that were overcome to beat the customary odds. The author vividly details what it was like to grow up in "the hood", specifically in southern Louisiana, and some of the people and things that made him who he is today. From all of the childhood good times and common family dysfunction, to the disclosure of a life-threatening battle, Chris is extremely transparent in all of his words.

The motivation for this book was centered around positively affecting individuals who could relate to Chris's story. That includes the African-American youth living with similar circumstances.
