Five of the first eleven emperors of Rome were assassinated and another two killed themselves rather than face the fury of their subjects. Nero sang while Rome burned. Caligula proclaimed himself a god. If not mad enough already, he also gave one of his horses a place on the senate. Rome rejoiced when many emperors died, only to find that they hated the next one just as much. From the death of Julius Caesar in 44BC to the fall of Rome in 476AD, Dark History of the Roman Emperors presents a wry and witty look at five centuries of Roman mayhem, murder, incest, infanticide, sadism, sexual depravity and madness. Featuring such notorious names as Claudius, Tiberius and Commodus, this book retells all of the most eye-opening accounts of imperial misdeeds, drawing on many original Roman sources. Illustrated with striking images of the protagonists and their deeds, from ancient statues to medieval engravings and renaissance paintings, Dark History of the Roman Emperors is an entertaining and visually spectacular account of the skulduggery of the greatest empire the world has ever known – and the hubris that came with it.
