Many humans dream of being full time digital marketers and that they have a tendency to photo something unique once they do.

People who need to work online frequently photograph it as giving them total freedom over how, whilst and wherein they work. They might imagine themselves operating from bed, or perhaps from an special seaside out of a café, paying attention to nearby track and sipping neighborhood drinks.

Or scratch that: perhaps they suppose they're going to be running in most cases off of their private yacht. Because they'll be rich: extremely good rich. That's what all of the ads say, anyway!
