

The Hidden Gems: HCI International 2020 Late Breaking Posters

Are you ready to explore the latest cutting-edge research and breakthroughs in Human-Computer Interaction (HCI) at the HCI International 2020 Late Breaking Posters exhibition? This year's event, held from [insert dates], promises to be an

exquisite gathering of researchers, practitioners, and industry experts, all striving to shape the future of HCI.

What are Late Breaking Posters?

Late Breaking Posters provide researchers with an opportunity to present their latest findings and developments in HCI during the conference. They cover a wide range of topics, such as user experience design, accessibility, interaction techniques, virtual reality, augmented reality, and much more.

HCI International 2020 – Late Breaking Posters: 22nd International Conference, HCII 2020, Copenhagen, Denmark, July 19–24, 2020, Proceedings, Part I (Communications ... Computer and Information Science Book 1293)

by Christine Manzari (1st ed. 2020 Edition, Kindle Edition)

Why Attend HCI International 2020 Late Breaking Posters Exhibition?

The Late Breaking Posters exhibition at HCI International 2020 offers a unique chance to witness the interdisciplinary nature of HCI research. Here's what you can expect:

1. Networking Opportunities

Connect and engage with like-minded individuals, including renowned HCI experts, leading researchers, and industry professionals. The Late Breaking Posters exhibition encourages networking, fostering valuable collaborations that can lead to innovative advancements in the field.

2. Discover New Research

Stay at the forefront of HCI research by exploring the latest developments and breakthroughs in the field. From novel interaction techniques to emerging technologies, there's no shortage of exciting research areas to discover at the Late Breaking Posters exhibition.

3. Interactive Demonstrations

Immerse yourself in interactive demonstrations of cutting-edge technologies and prototypes, providing a hands-on experience that showcases the potential of HCI. Get a firsthand look at how HCI is revolutionizing various industries, from healthcare to entertainment.

4. Engaging Discussions

Participate in thought-provoking discussions and engage in Q&A sessions with presenters, gaining deeper insights into their work. The Late Breaking Posters exhibition provides a platform for fruitful conversations, where attendees can exchange ideas and share experiences.

Key Topics to Look Out For

The HCI International 2020 Late Breaking Posters exhibition will feature a diverse range of topics, including:

- Usability and user experience design

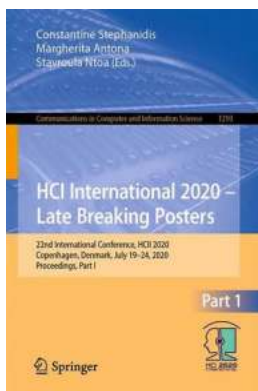

- Human-Robot Interaction
- Mobile and wearable computing
- Accessibility and inclusive design
- Intelligent user interfaces
- Virtual reality and augmented reality
- Gamification
- Human factors in cybersecurity

Don't Miss Out on HCI International 2020 Late Breaking Posters!

Be part of the HCI International 2020 Late Breaking Posters exhibition and immerse yourself in the world of human-computer interaction. Stay ahead of the curve by keeping up with the latest research and developments, while connecting with the brightest minds in the field. Don't miss this opportunity to shape the future of HCI!

This book constitutes the poster papers presented during the 22nd International Conference on Human-Computer Interaction, HCII 2020, which was held in July 2020. The conference was planned to take place in Copenhagen, Denmark, but had to change to a virtual conference mode due to the COVID-19 pandemic.

From a total of 6326 submissions, a total of 1439 papers and 238 posters have been accepted for publication in the HCII 2020 proceedings before the conference took place. In addition, a total of 333 papers and 144 posters are included in the volumes of the proceedings published after the conference as “Late Breaking Work” (papers and posters). These contributions address the latest research and development efforts in the field and highlight the human aspects of design and use of computing systems.

The 62 papers presented in this volume are organized in topical sections as follows: HCI theory, methods and tools; mobile and multimodal interaction; interacting with data, information and knowledge; interaction and intelligence; user experience, emotions and psychophysiological computing.
