False starts can take many forms. From abandoned business ideas to failed personal projects or even broken relationships, they all share a common thread - the lack of dedicated effort and commitment required for success. More often than not, false starts are driven by fleeting motivations and a failure to understand the full extent of the challenges ahead.

Ignorance or Self-Doubt?

One may wonder why individuals allow themselves to embark on endeavors they are ill-prepared to pursue. In some cases, it stems from ignorance - the lack of understanding or awareness of the commitment required to bring an idea to fruition. In other cases, it may be rooted in self-doubt and a fear of failure. These underlying factors contribute to the creation of a Junkyard of False Starts.

When individuals embark on a new project without fully understanding the effort and resources it demands, they find themselves overwhelmed and disillusioned at the first sign of obstacles. They quickly lose sight of their initial excitement and motivation, abandoning their dreams and adding another discarded skeleton to the junkyard.

The Seductive Power of Distractions

In today's fast-paced world, distractions are aplenty. They come in the form of social media, endless entertainment options, and a myriad of other shiny objects vying for our attention. It is all too easy to succumb to the allure of these distractions, allowing them to divert us from our intended path and lure us towards the Junkyard of False Starts.

When faced with obstacles or the monotony of perseverance, distractions offer a convenient escape. They provide a temporary respite from the struggles and challenges that accompany meaningful pursuits. However, what may appear as a harmless diversion can soon become a habit, leading to a trail of unfinished projects and unfulfilled potential.

The Path to Redemption

Awareness and self-reflection are the first steps towards avoiding the Junkyard of False Starts. Before embarking on a new venture, it is crucial to evaluate our motivations and assess our willingness to commit the necessary time, effort, and resources to see it through. By understanding the potential obstacles and accepting the inevitable challenges, we can equip ourselves with the determination needed to succeed.

Furthermore, developing a disciplined mindset and staying focused on our goals is essential to ward off distractions. It requires prioritizing our ambitions and

allocating dedicated time to work towards them, while also combating the allure of instant gratification provided by the digital world.

The Lure of a New Beginning

The Junkyard of False Starts stands as a stark reminder that our dreams and aspirations deserve more than half-hearted attempts. It is a testament to the consequences of neglecting dedication, persistence, and self-belief. Every abandoned project is a missed opportunity and a lesson to be learned.

In the end, whether we choose to add another discarded skeleton to the junkyard or rise above the challenges and fulfill our potential depends on our willingness to confront our fears, stay committed, and embrace the hard work required for true success.

ESSENCE:

A modern Viking stuck in Buenos Aires is facing his life's most difficult choice: hard drugs or real love. This is a modern literary travelogue and memoir, hard-hitting and unique.

STORY:

A Norwegian ex-med student, into hard drugs and messing up, travels to Buenos Aires to meet an Argentine girl. She's not into drugs and messing up, instead she paints her demons out through her art. Two fronts collide and the ensuing hurricane threatens to rip their worlds apart. Contrasting the different lives and cultures which led to who they are, the story revolves around a single day, May 15: the day of overdose and tuberculosis and death and redemption. No miracles, only in-your-face love.

Q&A:

1. "What was the hardest part of writing this book?"

Many of the moments described are self-lived, and trying to write truthfully about them is like staring too long into the mirror...soon I wanted to smash it. Yet, for a subject matter this serious the tone is quite light, even humorous...at least if you like it dark. And I poke fun at myself. A lot!

2. "Is there a message in your book that you want readers to grasp?"

Generally I try to avoid moral superstructures in what I write, but a definite message is that love for or from another can conquer the hate for yourself. Also, I hope people reading it may feel less alone in their life's fight. Hint: being human we are all in the same ring fighting the same demons!

3. "Tell us about the cover and the inspiration for it."

It's a portrait of yours truly, painted by Cécile Perret. I think it reflects perfectly the soul of the book. Also, it's simply a stunning piece of art...too bad Cécile sold it to

a collector in London. If I get a hold of him I'd like to buy it back. Oh, and I like the fact the face is half hidden!
