Twelve-year-old Marco Loristan has spent his life moving from place to place with his father, Stefan, always hiding their heritage. Their home country of Samavia has been in turmoil ever since the king was overthrown five hundred years ago, and now its people are forced to fight in the armies of warring factions. But legend has it that the heir of the true king escaped, and his descendant is waiting until the time is right to reclaim the throne and restore peace to the country.

While living in London, Marco learns of a secret his father has been hiding: Stefan knows the identity of the lost prince and that he'll reveal himself soon.
