How To Earn a Full-Time Income In Your Spare Time With Direct Sales!

You Too Can Live The Life Of Your Dreams Thanks to Network Marketing.

If a 19 year old broke and shy kid like me can earn a full-time income in three years, anyone can! In The Network Marketing Manual, you will learn:

How to Become a Top Earner in Your Multilevel Marketing Company

I was 19 years old when I first started working in the network marketing industry. Little did I know that the decision to build my own network marketing business would lead me to the time freedom and lifestyle I have today.

By the time I graduated from college I was earning a full-time income as a network marketer even though I was only working about 10-15 hours a week.

Live The Life of Your Dreams

The freedom network marketing has given me has allowed me to follow my passion and truly live my dreams. Thanks to the great income and small amount of time I have to work in my network marketing business I've been able to write and publish several international best-selling books and start a successful publishing company of my own without any investors or debt.

I can honestly say this: out of everything I've done in my life, the one thing I am the most proud of is helping my network marketing team achieve their dreams in this industry. I've been able to help people come out of poverty into wealth. Out of ignorance into knowledge. Out of darkness into light.

I think that's what network marketing is all about. More than the money, it's about the journey. It's about the relationships. It's about the personal growth and development that can only come from overcoming our fears, worries, anxieties and imperfections.

If you're looking for a legitimate way to make money from home, network marketing could be the perfect opportunity for you. It's not a way to get rich quick

as some hyped up companies may tell you, but it is definitely a great way to get rich over time for those who are committed to serving their customers and team members.

How to Build Amazing Lifelong Relationships and Income

Whether you call it MLM, direct sales, or network marketing, it's all about relationships. If you build long-term relationships in a home based business you will achieve the lifestyle and financial freedom you dream about. Without good relationships, there is no success.

Direct sales success isn't about pressuring others or alienating your friends and family. Long term relationships lead to long-term success.

The Success Formula For Overcoming Rejection

All great network marketers had to face rejection just like you and I.

What's the difference between the MLM superstar who earns million of dollars a year and the person who fails? The superstars know that every rejection brings you closer to your goal! Instead of only hearing no 5 or 10 times, a superstar has heard it thousands of times.

Once you understand and apply this formula for overcoming rejection, you too can become a top producing network marketer.

The Network Marketing Strategy That Works

I read all the network marketing books and listened to all the CD's and trainings I

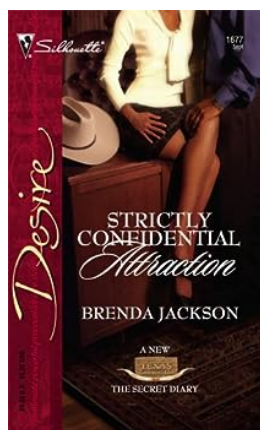

could get my hands on. I studied diligently with every person in my company who's earning over \$1 million a year. I even sought out other direct sales success experts from other companies and gleaned from their wisdom, experience and knowledge. And I've put those greatest lessons in this book.

This knowledge will change your life forever if you're ready to change. I wrote this book to help you on your journey to achieve the success you truly desire. Here's to you!
