The Prince is a 16th-century political thesis by Niccolò Machiavelli. From correspondence, a version appears to have been distributed in 1513, using a Latin title, De Principatibus (About Principalities). However, the printed version was not published until 1532, five years after Machiavelli's death. Often referred to as Machiavelli's 'job application' in disguise, The Prince foregrounded the contrasting aspects of virtue and vice: virtue is not always an admirable trait, and vice is not always detrimental to society. He presented an 'unsentimental' analysis of human behaviour and justified immorality, deceit and deviousness to control a State.

Written in 1513, shortly after Machiavelli was exiled from Florence, The Prince was posthumously published in 1532. Prohibited by the Court of Rome, The Prince was also banned by the Catholic Church.
