The West Indies, a world famous tropical archipelago, is a great place for a holiday but if you have a go at living out there and try to get stuff done, it can be a very hostile environment. This bundle of wonderfully intimate letters tells of a man who, having bought the derelict sailing yacht Odyssey, finds himself semi marooned and locked in an epic struggle to drag her back from the brink of extinction. His journey to the edges of sanity and reason set amongst the 'disappeared' of the maritime community is bound up in a love affair with the Windward islands, but especially Grenada its culture and people. This fascinating tale contains elements of 'Zen and the Art' Robinson Crusoe and a little 'Don't stop the carnival' for good measure.

'Lost Odyssey combines a rare and entertaining portrait of people and events that Richard stumbles across while giving an in-depth look at the highs and lows of owning a boat. I look forward to seeing this book in print. It will be a grand addition to maritime literature.'
