

# **The Ultimate Guide to DECSOS 2020, Depdevops 2020, USDai 2020, and WAISE 2020 in Lisbon, Portugal, in September**

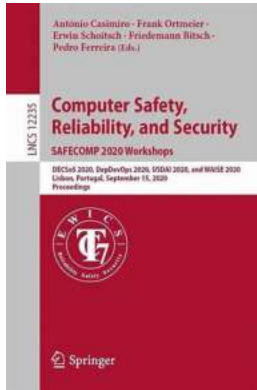

Are you a technology enthusiast looking for the latest updates and trends in the world of cybersecurity, software development, artificial intelligence, and more? Look no further! The cultural capital of Portugal, Lisbon, is hosting four major tech conferences this September: DECSOS 2020, Depdevops 2020, USDai 2020, and WAISE 2020. These events are set to bring together industry experts, thought leaders, and passionate professionals to share knowledge, network, and push the boundaries of innovation. If you're eager to stay ahead of the curve and be part of the tech revolution, mark your calendar for this exciting line-up of conferences.

## **DECSOS 2020: Digging Deep into Cybersecurity**

DECSOS 2020, or the 15th International Conference on Dependable, Autonomic, and Secure Computing, is scheduled to take place from September 1st to 3rd. With a focus on cybersecurity, this conference aims to explore the latest advancements in dependable and autonomic computing systems, security, privacy, and risk assessment. Over the course of three days, DECSOS 2020 will bring together researchers, practitioners, and industry professionals to present their findings, exchange ideas, and discuss the future of cybersecurity.

Some of the topics that will be covered at DECSOS 2020 include:

**Computer Safety, Reliability, and Security.**  
**SAFECOMP 2020 Workshops: DECSOs 2020,**  
**DepDevOps 2020, USDAI 2020, and WAISE 2020,**  
**Lisbon, Portugal, September ... Notes in Computer**

## Science Book 12235)

by Des Hammill (1st ed. 2020 Edition, Kindle Edition)

Screen Reader : Supported  
Enhanced typesetting : Enabled  
Print length : 747 pages

- Secure computing models and frameworks
- Privacy in the digital age
- Threat modeling and risk assessment
- Cloud and data security
- Blockchain technology
- Vulnerability analysis and countermeasures

If you are passionate about cybersecurity and want to stay up to date with the latest trends and strategies, DECSOS 2020 is a must-attend event for you.

## Depdevops 2020: Bridging the Gap Between Development and Operations

Depdevops 2020, or the 7th International Workshop on Big Data Application and Principles of Dependable Systems, will take place from September 5th to 6th.

This event aims to delve into the intricacies of bridging the gap between software development and operations by exploring the principles of dependable systems.

By bringing together experts and professionals from the fields of software

engineering and operations, Depdevops 2020 aims to foster collaboration, share best practices, and optimize the development and deployment processes.

Some of the key topics to be discussed at Depdevops 2020 include:

- DevOps principles and practices
- Continuous integration and deployment
- Metrics and monitoring in software development
- Cloud-native architectures
- Microservices and containerization
- Testing and quality assurance

Whether you are a software developer, operations manager, or simply interested in the DevOps culture, Depdevops 2020 offers a comprehensive insight into the world of software development and operations.

## **USDai 2020: Unleashing the Power of Artificial Intelligence**

USDai 2020, or the 6th International Conference on Urban Sustainability, Data Analytics and Intelligent Cities, will be held on September 10th and 11th. As the name suggests, this conference focuses on the intersection of urban sustainability, data analytics, and artificial intelligence. The event brings together researchers, policymakers, and industry experts to discuss how data-driven decision-making and AI can contribute to building intelligent and sustainable cities.

Some of the hot topics to be covered at USDai 2020 include:

- Smart city technologies

- Urban mobility and transportation
- Energy efficiency and sustainability
- Data analysis for urban planning
- Natural disaster management
- Ethical considerations in AI-driven cities

If you are passionate about harnessing the power of data and AI to create sustainable and intelligent cities, USDai 2020 provides an opportunity to learn from industry leaders and contribute to the future of urban development.

## **WAISE 2020: Shaping the Future with Artificial Intelligence**

WAISE 2020, or the 3rd International Workshop on Artificial Intelligence Safety Engineering, will take place on September 15th and 16th. This workshop focuses on the crucial and ever-evolving field of artificial intelligence safety engineering, exploring ways to ensure the safe and responsible development and deployment of AI technologies. WAISE 2020 brings together researchers, engineers, and policymakers to address the challenges of AI safety and discuss potential solutions.

Some of the key topics that will be discussed at WAISE 2020 include:

- AI ethics and regulations
- Adversarial attacks and defenses
- Robustness and reliability of AI systems
- Explainable AI
- AI in critical industries like healthcare and finance

- Legal and societal implications of AI

By attending WAISE 2020, you can gain valuable insights into the challenges and opportunities of AI safety and contribute to shaping the future of artificial intelligence.

## **Why Attend These Conferences in Lisbon?**

Aside from the exceptional lineup of speakers, thought-provoking discussions, and knowledge-sharing opportunities, attending these conferences in Lisbon offers additional benefits. Lisbon's breathtaking architecture, vibrant cultural scene, and world-renowned gastronomy create the perfect backdrop for networking and relaxation between conference sessions.

Furthermore, Lisbon is rapidly becoming a European tech hub, attracting innovative startups and tech companies from around the world. By attending these conferences, you have the opportunity to connect with potential employers, discover new career opportunities, and expand your professional network.

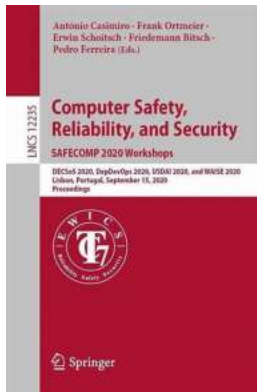

DECSOS 2020, Depdevops 2020, USDai 2020, and WAISE 2020 are four exciting tech conferences that you don't want to miss. Whether you are interested in cybersecurity, software development, artificial intelligence, or the future of data-driven cities, these events provide valuable insights, networking opportunities, and a chance to contribute to the cutting-edge technology discussions.

So, mark your calendar for September and get ready to embark on a journey of knowledge, inspiration, and innovation in the beautiful city of Lisbon, Portugal!

**Computer Safety, Reliability, and Security.**

**SAFECOMP 2020 Workshops: DECSoS 2020,**

**DepDevOps 2020, USDAI 2020, and WAISE 2020,**

## Lisbon, Portugal, September ... Notes in Computer Science Book 12235)

by Des Hammill (1st ed. 2020 Edition, Kindle Edition)

★★★★☆ 4.1 out of 5

Language : English  
File size : 37366 KB

Print length : 747 pages

This book constitutes the proceedings of the Workshops held in conjunction with SAFECOMP 2020, 39th International Conference on Computer Safety, Reliability and Security, Lisbon, Portugal, September 2020.

The 26 regular papers included in this volume were carefully reviewed and selected from 45 submissions; the book also contains one invited paper. The workshops included in this volume are:

DECSoS 2020:

15th Workshop on Dependable Smart Embedded and Cyber-Physical Systems and Systems-of-Systems.

DepDevOps 2020:

First International Workshop on Dependable Development-Operation Continuum Methods for Dependable Cyber-Physical Systems.

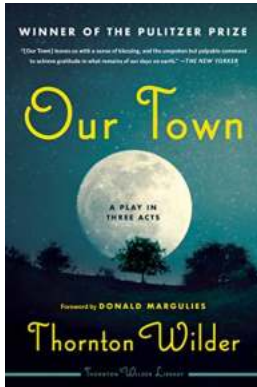

USDAI 2020:

First International Workshop on Underpinnings for Safe Distributed AI.

WAISE 2020:

Third International Workshop on Artificial Intelligence Safety Engineering.

The workshops were held virtually due to the COVID-19 pandemic.
