## What are Sight Words?

Sight words are commonly used words that children should be able to recognize instantly, without needing to sound them out. These words are high-frequency words that appear often in written text. Examples of sight words include 'the', 'and', 'is', 'it', 'jump', and 'run'.

Mastering sight words is crucial for independent reading because they make up a large percentage of all written material. By recognizing sight words quickly, children can focus on decoding unfamiliar words and comprehending the text, rather than getting stuck on every word.

## Why Combine Sight Words with Verbs?

Verbs are a vital part of any sentence. They represent actions, and without verbs, sentences become incomplete or lose their meaning. By combining sight words with verbs, children learn to recognize both sight words and the action words that bring sentences to life.

Be that as it may, it is not just about adding verbs to sight words, it is about expanding the vocabulary of sight words. Instead of solely focusing on single-syllable sight words, we introduce sight words plus verbs, which are often multi-syllable words. This approach allows children to tackle more complex sentences, enhancing their reading comprehension and overall language skills.

118 pages. Discover the Math & Reading Flashcard Series. Flash cards with attitude and critters. The author, Robert Stanek, collected sight word lists, wall word lists, and vocabulary lists while his four children attended elementary school. The Sight Words Plus system incorporates the many words on those many lists, gathered over many years. Knowing sight words and wall words is essential for reading fluency and classroom learning.

This book is complete with 100 of the most commonly used verbs, organized into 6 different word sets for easier learning. Sight words are words that are used frequently but may be difficult to sound out or may be confused with other words. Because children often have trouble reading sight words phonetically, they can benefit instead from the whole word approach in which they memorize each word.

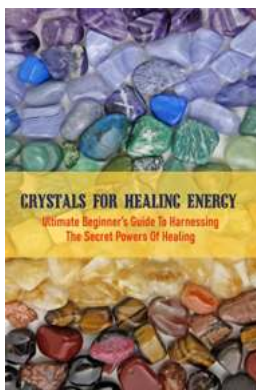

Wall words are words that teachers commonly emphasize in the classroom to improve reading and learning skills. Although many of these words are used in the classroom, they may not be used regularly at home and children can benefit greatly from memorizing each word.

With repetition and context clues, your child should quickly master these important verbs.
