Guide Their Shot! Lorne Bowman Sr. didn't set out to write a recruitment guide for parents. He had one goal in mind when the idea for this book came about--getting his son, Lorne Jr., through high school; his son, Aaron, through middle school; and supporting his daughter. That was his focus, but then something happened. It became evident that there was an opportunity to pass along what he learned from his journey in the recruiting process to others who would eventually find themselves in the same situation. With a goal in mind to educate and to assist parents in making their journey a smooth one, Shots Up! Recruitment Guide is for you if you have a student athlete with aspirations of an advanced athletic career, because it will help you navigate your child through the maze of challenges that may lead towards a future of success. Shots UP! Will:

- Help parents to identify,

handle, and groom a child that shows a skill set for the game. • Discuss how to set boundaries for student athletes that will help them focus on their education while playing sports. • Show you how to place your child in the best position to be noticed by recruiters. • Explain the recruitment process from the coaches' point of view. • Tell you how to avoid traps that can hinder your child's chances of being recruited.
