The book will include historical facts and references of the words’ origins. The book will also include landmarks, both historic and cultural, and why they’re so important to the city. The goal is to create a book for all ages to reference whether they’ve been to Boston once, lived here their whole life, or just plan to visit one day. Boston has a lot of universal references throughout pop culture and this book will be the go-to resource for people to learn more, get a laugh, and understand the people of Boston. We are working out the organization, but it will be broken into categories For example, the weather pages would begin with a few pages with some fun facts about the weather in Boston, some general weather humor info and then it will go into different anecdotes and slang explanations related to the the weather. Ex. Muggie, Scortcha, Wintah, Wicked Humid, etc... Each anecdote page will be then be accompanied by some fun facts related to the slang term. Scortcha: Anytime the weather in Boston is over 90 degrees, you will hear someone say "It's a Scortcha out there." This is what we call hazy, hot, & humid! On a scortcha of a day a typical Bostonian would visit Dunks for an "Iced" an extra time or two, anyone with a pool will be getting a message asking "What are you doing today", and social media will be full of photos showing temperature gauges inside cars (unless you drive a "beater", they don't usually have temperature gauges). Even if we suffered a tough winter Bostonians will be complaining about the heat. In fact most conversations in Boston are weather related.....more (Page will have accompanying art, maybe a funny caricature of someone sweating in the heat or in a float in a pool, and will have some related facts about Boston
