2. True or False: The tallest mountain in the world is Mount Everest.

If you guessed true, you're absolutely correct! Mount Everest, located in the Himalayas, is indeed the tallest mountain in the world. It reaches a staggering height of 29,032 feet (8,848 meters) and continues to awe adventurers and mountain climbers from all over the globe.

Fun Fact: Did you know that Mount Everest is named after Sir George Everest, a British surveyor who played a significant role in measuring and documenting the mountain's height?

3. True or False: The Amazon Rainforest is the largest rainforest in the world.

If you said true, you're right on the money! The Amazon Rainforest is indeed the largest rainforest in the world, spanning over 2.1 million square miles (5.5 million square kilometers). It is home to an incredible array of plant and animal species, many of which are yet to be discovered by scientists.

4. True or False: The Declaration of Independence was signed in 1776.

If you answered true, you've got it! The Declaration of Independence, the historic document that announced the thirteen American colonies' separation from Great Britain, was indeed signed on July 4, 1776. It marked a pivotal moment in American history and laid the foundation for the birth of a new nation.

5. True or False: Water boils at exactly 100 degrees Celsius.

This one is false! While water does boil at 100 degrees Celsius under normal atmospheric pressure, this temperature can vary depending on the altitude. For example, at higher altitudes, where the atmospheric pressure is lower, water may boil at a temperature slightly below 100 degrees Celsius.

6. True or False: Marie Curie discovered radium.

Congratulations if you said true! Marie Curie, a renowned physicist and chemist, was indeed the discoverer of radium. Her groundbreaking work in the field of radioactivity revolutionized science and earned her two Nobel Prizes, making her the first woman to ever receive such an honor.

7. True or False: Penguins can fly.

This one is false, unfortunately. Penguins are excellent swimmers and spend most of their lives in the water, but they are unable to fly. Their wings are specially adapted for swimming, allowing them to navigate through the icy waters with incredible skill.

8. True or False: The Statue of Liberty was a gift from France.

If you answered true, you're absolutely correct! The Statue of Liberty, a symbol of freedom and democracy, was indeed a gift from the people of France to the United States. It was dedicated on October 28, 1886, and has since become one of the most iconic landmarks in the world.

9. True or False: The planet Mars is known as the "Red Planet."

If you said true, you're absolutely right! Mars, often referred to as the "Red Planet," gets its nickname from its reddish appearance, caused by iron oxide (commonly known as rust) on its surface. This nickname has fascinated both scientists and space enthusiasts for centuries.

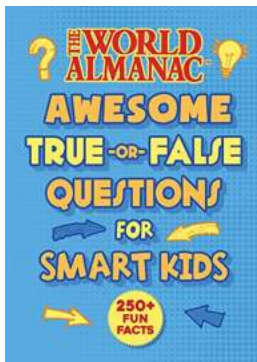

10. True or False: The human body has 206 bones.

This one is true! The average human body does indeed have 206 bones.

However, the number can slightly vary from person to person. Babies are born with around 300 bones, but as they grow, some of these bones fuse together, resulting in the adult count of 206.

Now that you've tested your knowledge with these awesome true or false questions from The World Almanac, how did you do? Whether you got them all right or learned something new, engaging in fun, educational activities like this can broaden your horizons and make learning an enjoyable experience.

Remember to explore more from The World Almanac and embrace the joys of knowledge and discovery. Who said learning can't be fun? So, keep those curious minds engaged and ready to take on the world!
