After a hundred generations spent without doors or windows, all knowledge of the outside world, if any, is lost. Concealed behind his golden mask and armor, Torq alone fights for justice and freedom. Until the day when sixteen-year-old Rand Roberts, the poorest of the poor, witnesses his hero's demise and subsequently discovers Torq's disillusioning and heartbreaking secret.

Now, Rand decides, it's time for the Machine to have a new Torq. A better Torq. A real Torq.

So, donning the armor himself, he and his best friend Lucy form an unlikely alliance with a courageous uppergirl and a mysterious little boy called No Name. Together, the four of them set out against overwhelming odds to do the impossible – free the people of the Machine. To accomplish this, they must face

dangers, monsters, and madmen, and ultimately reveal ancient truths that will shake the very foundation of their world.
