This set of two pretty lace panels for decorative pillows were designed in 1916 by Ethel Herrick Stetson. Spring Crown has spade and scepter motifs in the center and border. Spring Wreath is smaller, with filigree around the edges. Sew the panels on to pillow tops that you make or buy for beautiful accents in your home decor.

This is not your usual scanned vintage crochet pattern. To make this pattern great for today's crocheter I wrote complete instructions, expanded the written instructions so you won't need to skip around, and made an easy to follow chart. I also changed the written instructions to use modern US crochet terms.

The only stitches you need to know to complete these pillow tops are: chain stitch and double crochet.
