Return to the Alternate Universe of 1632 and 1633 as the Top Writers of Alternate History and Military SF Join Forces in the Shared-Universe Volume of the Year

The battle between democracy and tyranny is joined, and the American Revolution has begun over a century ahead of schedule. A cosmic accident has shifted a modern West Virginia town back through time and space to land it and its twentieth century technology in Germany in the middle of the Thirty Years War. History must take a new course as American freedom and democracy battle against the squabbling despots of seventeenth-century Europe.

Continuing the story begun in the hit novels 1632 and 1633, the New York Times best-selling creator of Honor Harrington, David Weber, the best-selling fantasy star Mercedes Lackey, space adventure author K. D. Wentworth, Dave Freer, co-author of the hit novels Rats, Bats & Vats and Pyramid Scheme (both Baen), and Eric Flint himself combine their considerable talents in a shared-universe volume that will be a must-have for every reader of 1632 and 1633.

At the publisher's request, this title is sold without DRM (Digital Rights Management).

"[Eric Flint's 1632 is] a rich complex alternate history with great characters and vivid action. A great read and an excellent book." -David Drake

[1633 is] thoughtful and exciting . . . highly recommended. . . ." -Publishers Weekly

"[Readers] of Flint's 1632 will see its strengths in its sequel right from the beginning . . . The same formidable historiography, wit . . . intelligently ferocious women, and mouth-watering displays of alternate technology are again on view . . . [many readers] will turn every page and cry for more, which the authors intend to provide." -Booklist

". . . Weber and Flint take historic speculation to a new level in a tale [1633] that combines accurate historical research with bold leaps of the imagination. Fans of alternate history and military sf should enjoy this rousing tale of adventure and intrigue." -Library Journal

Eric Flint is the author of the New York Times best seller 1634: The Galileo Affair (with Andrew Dennis)—a novel in his top-selling "Ring of Fire" alternate history series. His first novel for Baen, Mother of Demons, was picked by Science Fiction Chronicle as a best novel of the year. His 1632, which launched the Ring of Fire series, won widespread critical praise, as from Publishers Weekly, which called him "an SF author of particular note, one who can entertain and edify in equal, and major measure." A longtime labor union activist with a master's degree in history, he currently resides in northwest Indiana with his wife Lucille.
