For countless years, Drogga has made the journey alone. His cart wobbles over hard ground, crossing empty land between his village and the tower. When Drogga encounters a human child, a runaway hiding at this near-sacred place, he resists his instinct to chase her off. He provides the girl with food and shelter. He listens to her stories of the city, where humans still live. He has heard how these people—strangely pale and hairless—brought about the destruction of the world, though surely this child is no more at fault than Drogga, or his people.

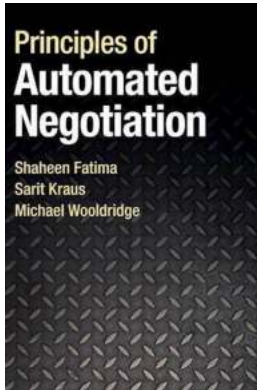

When Drogga's sister must accompany him to the tower, he knows that he has made a terrible mistake. His sister will never approve of this human child, not where the akku belong. Drogga sees only one option. His sister and the girl must not meet.

Alex Fosse creates an intricate, yet delicate world in this novelette (about 50 pages, or 16,000 words). A world that on deeper inspection reveals itself to be not quite so foreign from our own.
