By utilizing an MLM autoresponder, you can create a series of follow-up messages that will be sent to your prospects on autopilot. This helps you maintain regular communication, nurture relationships, and provide valuable information about your business opportunity or products. It ensures that no prospect falls through the cracks, increasing the likelihood of converting them into active distributors or customers.

Tailoring Network Marketing Email Messages for Success

When crafting network marketing email messages, it's important to keep in mind that your audience receives countless emails every day. To stand out from the

crowd, your emails need to be compelling, well-designed, and targeted. Here are some tips for creating effective email messages:

- **Subject Line:** Grab your reader's attention with a catchy subject line that makes them want to open the email.
- **Personalization:** Customize your email by addressing each recipient by their name. This simple touch makes your message feel more genuine and increases engagement.
- **Engaging Content:** Provide valuable content that educates, entertains, or solves a problem for your readers. This builds trust and positions you as an expert in your field.
- **Call to Action:** Include clear and compelling calls to action that encourage your recipients to take the desired action, such as signing up for a webinar or purchasing a product.
- **Mobile-Friendly Design:** Optimize your emails for mobile devices since most people now check their emails on smartphones or tablets. Ensure your email is responsive and easy to navigate.
- **Follow-Up:** Use your autoresponder to send follow-up messages and keep the conversation going. Consistent communication is vital for building trust and keeping your business top of mind.

5 Tips for Crafting Compelling Email Subject Lines

The Power of Crafting Long Descriptive Keyword Alt Attributes

Incorporating useful alt attributes in your HTML code is crucial for both accessibility and search engine optimization (SEO). When it comes to the alt attribute for images, it's an excellent opportunity to enhance your SEO efforts. Instead of using generic alt texts, opt for long descriptive keywords that

accurately describe the image while incorporating relevant keywords related to your MLM business or network marketing industry.

By using long descriptive keyword alt attributes, you increase the chances of your images appearing in search results for relevant queries. This can drive more organic traffic to your website or landing pages, helping you generate leads and potential customers. Remember to keep your alt attributes concise, accurate, and informative for maximum impact.

This book contains a professionally written email drip campaign of 30 powerful, engaging and entertaining persuasive email/autoresponder messages focused on your prospects 'Financial Woes' and how YOU can help your prospect solve them.

Warning!

If you have been in Network Marketing for any length of time, you probably have accumulated a list of prospects and their email address. However, many of these prospects have entered the 'witness protection program'. In other words, they never call back or reply to your emails. Most people forget about this list, but there is GOLD in it!

Now, you probably have an email system you pay for that is filled with 'canned' autoresponders about your company, or even some generic versions to send to your list. Sometimes this is part of your 'backoffice'.

But, have you read these autoresponders being sent in your name?

They suck.

Here's why:

You have a prospect who is looking to solve THEIR problem, which is lack of money. They need money, income, some light at the end of the tunnel, cash,

maybe some dough to save their home... BUT they are NOT shopping for a MLM company, an INDUSTRY, or how long your company has been in business, or even what your product does...NO... they are desperate for a SOLUTION to their problems!

But if all the emails you send out are about 'the company, the timing, the industry...or how someone else is making money – no wonder they don't bother responding to you!

Can you imagine sending emails to starving children with stories about the kids in your family that have so much food... that they're fat? Of course not. So why send emails to financially struggling people about how others are rich? Your prospect doesn't care about other people's wealth when THEY are broke and in financial pain. In fact, it works the other way. Resentment, suspicion, distrust.

Their mind is on their lack of money and they are worried.

They are awake all night worrying about their debt because they are in financial trouble.

And what? You send them an email about how old your company is?

It's basic marketing folks; offer your prospect a solution to their problem, and relate to them on their terms.

At this point, all your prospect is interested in is finding 'a way to earn money'.

NOTE *** If you are new and have not earned a respectable income, chances are your upline will tell you to borrow someone else's story, but doing that only begs

the question from your prospect– ‘well, if everyone else is making money in your company, why aren't you?’

Forget that.

So, what is in this book? Do I teach you how to write emails? NO...NO...and NO!!!!

Is this some lessons on basic copy writing for MLM? Heck NO!!!

But let's face it. Most people can't write a note to save their lives, let alone a well-crafted email campaign. Forget learning a skill that will take you years to master – just use expert messages instead!

That's where this book of powerful 'financial woes' autoresponder messages will come to your aid.

Inside are 30 rock solid emails that focus on your prospects financial situation - with engaging humor and playfulness - showing how YOU and your program can help him out of his or her financial mess.

FULL DISCLOUSER – this is a small book – 30 powerful emails. You are not paying for the quantity of words, you are paying for the quality of the message and for getting your phone to ring.
