After the apocalyptic Terminus Signal induces worldwide slaughter, a death-weary band of survivors has followed the exotically handsome Deacon into a desert wasteland equally plagued by semi-organized clans of Terminal-case burnouts and bizarre alien chimeras. From Badwater Basin sunken into the lowest badlands of North America to the high, frozen icecaps of Antarctica, this hardy troupe of survivors has come to raise hell and kick alien ass.

Irrepressibly driven by a violent, indomitable desire for revenge, these desperate survivors now stand poised before hades gates, which swing wide at the bottom of an alien spaceport buried beneath Earth's southern pole. Here, the United States Government long ago built its abandoned Amundsen-Scott Base, which once provided cover and plausible deniability for an alien threat festering in the ice below. During their struggle to survive this latest attempt at redeeming human civilization, these hapless human beings will discover a new source of power long hidden inside the primitive human mind. Consequently, the cosmos may never recover from an Earth-bound exposure to The Wild Bunch.
